Human Capital ROI

At BlueSky Personnel Solutions, we provide comprehensive and integrated HR assessments and testing for the spectrum of permanent, contract, leased or temporary employment employee categories. Since employees represent the singular greatest direct expense within most businesses, it's critical that their workplace performance returns an adequate ROI necessary to meet defined business goals. At BlueSky Personnel Solutions, our array of diagnostic, testing, verification, behavioral and workplace assessment services can help you achieve maximum potential from your workforce.

Assessment Services

- **General Assessments** - BlueSky Personnel Solutions offers overall workplace and individual assessments addressing both existing and prospective employee candidates
- **References** - In depth reference checking to confirm education, career, personal and business referrals
- **Testing** - BlueSky Personnel Solutions utilizes a variety of computer based solutions to test for general competency in designated software applications and job designations, as well as the determination of individual personality, behavioral and skills aptitudes and potential.
- **ID Verification** - Providing detailed background checks and personal identity verification required for various levels of security clearance.
- **Health & Safety Assessment** - At BlueSky Personnel Solutions, we provide all of our employment placements with a safe work orientation. For our client group, we offer complete on site Health & Safety Audits necessary both to reduce workplace risk exposure and to meet various compliance issues. In conjunction with H&S Audits, our consultants can also conduct a simultaneous Ontario Government workplace audit.
